PROFESSIONAL SUMMARY

Dynamics 365 and Power Platform Developer with 4 years of experience building and maintaining CRM systems for global teams. Specializes in turning complex business problems into automated, end to end solutions using Power Apps and Dynamics 365 CRM across large scale operations in multiple regions.

CORE COMPETENCIES

Power Platform: Power Automate (Cloud Flows, Custom Connectors), Canvas Apps, Power Pages, Copilot Studio

Dynamics 365 CE: Plugins, APIs, Workflows, PCF Controls, Ribbon Workbench, XRM Toolbox

Azure and Data: Azure Data Factory, Azure Synapse, Synapse Link, SQL, SSMS

Development: C#, JavaScript, Python, Plugin Registration Tool, Visual Studio, GitHub, Jira

PROFESSIONAL EXPERIENCE

Ford Motor Company

Jul 2022 to Jan 2026

Software Analyst, Power Platform and Dynamics 365 CRM

- Designed and delivered Master Search, a unified search hub in Dynamics 365 CSW integrating Contact, Vehicle, Case, and Account search capabilities across multiple external systems, now the core entry point for 1000+ customer care agents across NA and Europe.
- Engineered 20+ Power Automate Cloud Flows automating repetitive tasks for Customer Care Agents across Europe and North America, directly reducing manual effort and agent handling time.
- Built 95+ custom dashboards, views, and Canvas Apps in Dynamics 365 CE, enhancing data visibility and productivity across Ford's global CRM environment.
- Led end to end deployment of Dynamics 365 Customer Service Workspace for Ford Mexico in Spanish, owning the full localization strategy and delivering a complete agent experience.
- Developed 5+ Azure Data Factory ETL pipelines, cutting data processing time by 50% and maintaining 100% accuracy across 100,000+ records on a daily basis.
- Owned Microsoft Wave UI and functionality testing cycles (2023 to 2024), identifying and resolving 95% of critical issues before deployment through structured collaboration with Microsoft engineering teams.

Ford Motor Company

Feb 2022 to Jun 2022

Software Analyst Intern

- Implemented Azure Synapse Link with ADF pipelines for real time data integration, enabling near instant analytics on Dynamics 365 CRM data.
- Identified and built a cost saving architecture using Azure Synapse, reducing data export costs by 50%.
- Executed schema and data migrations using the Configuration Migration Tool, streamlining solution deployment across environments.
